

Price list Great Britain

Price list Great Britain

Prices may vary depending on the charging station. Please check the valid prices in the CHARGE NOW app before you start charging.

CHARGE NOW differentiates the following charging speeds:

- AC – alternating current (normal charging)
- DC – direct current (fast charging)
- HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the CHARGE NOW website and the CHARGE NOW app.

Charging stations, which are provided free of charge by a charge point operator, are also generally provided free of charge to CHARGE NOW customers. You can conveniently filter for free charging stations on our map. Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event (session). All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging session. The prices depend on respective charge point operators. Please inform yourself about the valid prices in the CHARGE NOW app before you start charging. For charging abroad (e-roaming), you will always pay the local sales rate without any additional fees.

CHARGE NOW

The rates that apply to an individual charging event at the respective charging station can be found in the CHARGE NOW app and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

Tariff: Prime

Domestic charging fees

The Prime tariff is built for drivers who want more value when they charge. Enjoy discounts on AC and DC charging everywhere you go, with even bigger discounts at our Preferred Partner Network.

Base fee	8.99 GBP / month
AC charging ¹⁾	Flexible Prices Discount on the base tariff 10 %
DC charging ¹⁾	Flexible Prices Discount on the base tariff 10 %
Preferred Partner Network	Additional 20% discount based on the Urban Tariff
Minimum contract period	indefinite ²⁾
Replacement card	6.85 GBP
Preferred Partner Network	For its Preferred Partner Network, DCS selects a group of charge point operators (CPOs) offering a premium charging experience. Over time CPOs may be added to and/or removed from the Preferred Partner Network. Information on currently participating CPOs will always be available via the charging service website.

Charging fees abroad

The rates that apply to an individual charging event at the respective charging station can be found in the CHARGE NOW app and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

All prices include VAT

- 1) The prices displayed as "flexible prices" vary depending on the operator of the charging station and are subject to change. Additional fees, such as session fees, blocking or other time based fees, may apply at certain charging stations. The current applicable price, plus any additional fees, will be displayed at a selected charging station in the map of the CHARGE NOW app or on the CHARGE NOW website and can be checked directly prior to initiating a charging session.
- 2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

Charging event transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the CHARGE NOW service at free charging stations.

All rates incl. VAT, subject to changes and errors.
